One Bangkok Mobile Application - Invitation Code and Upgrade Membership

To

T.C.C. Technology Co., Ltd.

This document serves as the official **User Manual** for the Invitation Code and Upgrade Membership features within the One Bangkok Application. The purpose of this manual is to provide clear guidance on how these features operate within the application following their migration from the previous BZB web-based implementation to a fully native in-app experience integrated with the Single Sign-On (SSO) platform.

With SSO acting as the primary source of truth, invitation and upgrade membership codes are now generated, stored, and validated within a centralized system to ensure accurate identity management and tier assignment. This enhancement improves operational efficiency, data consistency, and overall user experience.

This manual outlines feature objectives, user workflows, business rules, system behaviors, and operational processes to support Business Units, Customer Support, and relevant stakeholders at T.C.C. Technology Co., Ltd. in effectively utilizing and managing these features.

1. Document Purpose

This User Manual provides operational guidance for the Invitation Code and Upgrade Membership features within the One Bangkok Application.

The document explains:

- Feature overview and objectives
- User interaction steps
- Code generation process
- Business rules and validation logic
- Expected system behaviors
- Error handling scenarios

This manual is intended for:

- Retail Business Unit (BU)
- Customer Support Team
- Operations Team
- Internal stakeholders

It complements the approved Statement of Work (SOW) and Technical Design Document (TDD).

2. Feature Overview

The Invitation Code and Upgrade Membership features allow controlled access and tier management within the One Bangkok Application.

Both features are integrated with the Single Sign-On (SSO) platform, which acts as the system of record for:

- Code storage
- Code validation
- Tier assignment
- Identity synchronization

There are two primary use cases:

1. Invitation Code – For new user registration
2. Upgrade Membership – For existing users to upgrade retail tier

3. Invitation Code

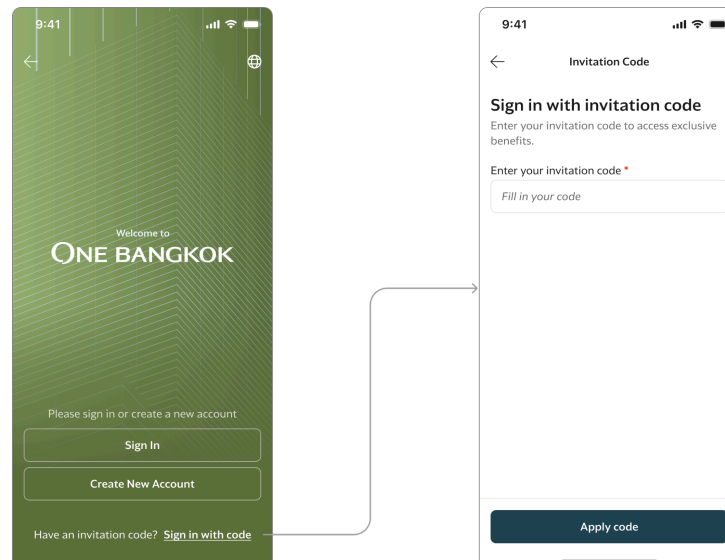

3.1. Purpose

Invitation Code allows selected users (e.g., VIPs) to:

- Register using a pre-generated code
- Receive a predefined retail tier
- Access application features based on assigned privileges

3.2. User Journey – Registration with Invitation Code

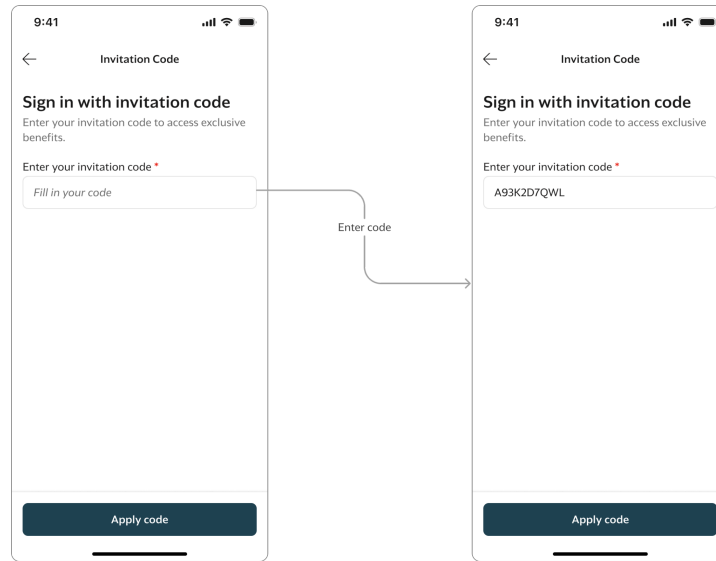

Step 1 – Select Login with Invitation Code: User selects “Login with Invitation Code” on login screen.

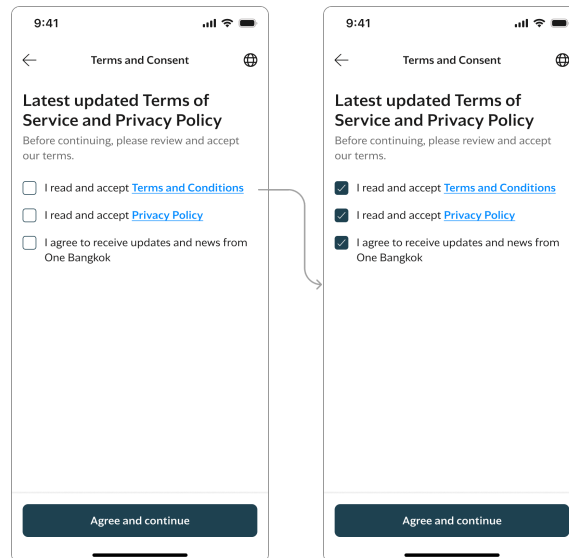

Step 2 – Enter Invitation Code: User enters a 10-character code.

System rules:

- Uppercase letters (A–Z)
- Numbers (0–9)
- Maximum length = 10 characters
- Auto-uppercase conversion

Step 3 – Accept Terms & Conditions

Step 4 – Complete Account Setup

User must:

- Choose Email or Phone
- Complete OTP verification
- Set password
- Select persona (Thai / Non-Thai)

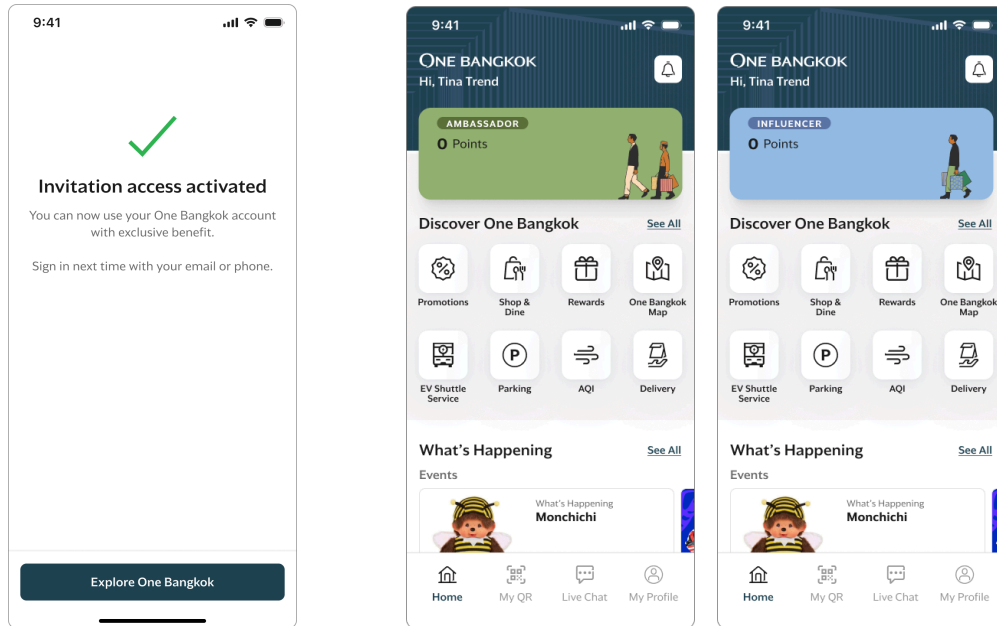

The image displays four sequential mobile app screens for account setup:

- Screen 1: Choose how you would like to continue**
Title: Complete Your Account
Text: Select your preferred method to sign up. You can always link more accounts later.
Form: Email input field with placeholder "Your email".
Buttons: "Continue with Email", "OR", "Continue with phone number".
- Screen 2: Enter OTP to verify your email**
Title: OTP Verification
Text: Sent to email@email.com (ref: kkk-1111)
Form: OTP input field showing "1 2 3 4 5 6".
Text: Request a new OTP in 00:59.
Button: "Continue".
- Screen 3: Set your password**
Title: Complete Your Account
Text: Enter the password you would like to use with your account.
Form: Password input field with strength indicator "Medium".
Text: How to create a strong password
List:
 - Use at least 8 characters
 - Include at least one uppercase letter (A-Z)
 - Include at least one lowercase letter (a-z)
 - Include at least one number (0-9)
 - Include at least one special character (e.g., @ # % ^ & * _ + = : " , < > / ?)

Step 5 – Account Creation

After successful completion:

- Account is created
- Invitation Code is deactivated
- Tier is assigned automatically

Tier assigned automatically (Influencer or Ambassador)

3.3. Business Rules – Invitation Code

Rule	Description
Code Length	10 characters
Character Set	A–Z, 0–9
Expiry	Last day of calendar year
Usage	Single-use
Tier	Influencer / Ambassador
Deactivation	After successful account creation only *If a user exits before completion, the code remains active.

3.4. Profile Restrictions for Invited Users

For users registered via Invitation Code:

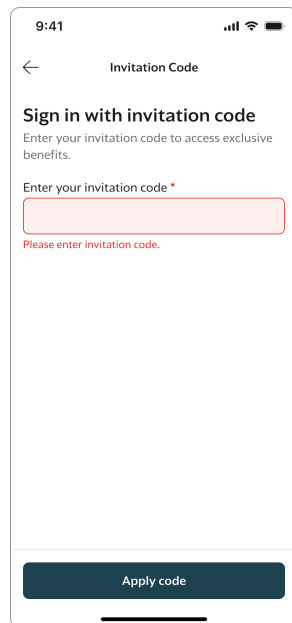

Editable:

- Date of Birth
- Address
- Gender
- ID Card / Passport (if not provided)

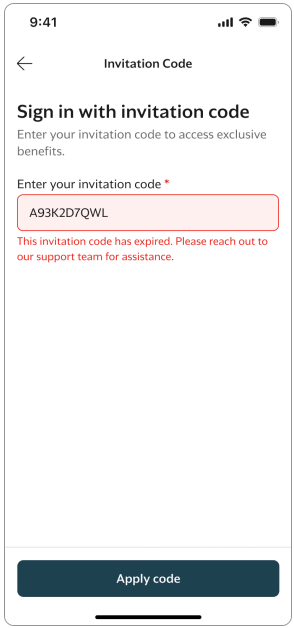

Not Editable:

- First Name
- Last Name

3.5. Error Handling – Invitation Code

Scenario	Display
Empty	

Scenario	Display
Invalid format or not found	The screenshot shows the 'Invitation Code' screen in the One Bangkok mobile app. At the top, it says 'Sign in with invitation code' and 'Enter your invitation code to access exclusive benefits.' Below this, there's a field 'Enter your invitation code *' with the code 'A93K2D7QWLLLLLLLLL' entered. A red error message below the field says 'Please enter valid invitation code.' At the bottom, there is an 'Apply code' button.
Code already used	The screenshot shows the 'Invitation Code' screen in the One Bangkok mobile app. At the top, it says 'Sign in with invitation code' and 'Enter your invitation code to access exclusive benefits.' Below this, there's a field 'Enter your invitation code *' with the code 'A93K2D7QWL' entered. A red error message below the field says 'This invitation code has already been activated. Please sign in with your email or phone.' At the bottom, there is an 'Apply code' button.

Scenario	Display
Code expired	

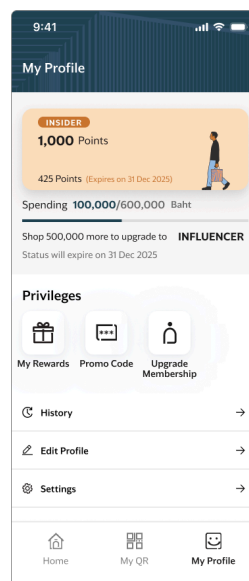

4. Upgrade Membership

4.1. Purpose

Upgrade Membership allows existing users to upgrade their retail tier using a special code provided by Retail BU. This feature replaces the previous webview-based process.

4.2. User Journey – Upgrade Membership

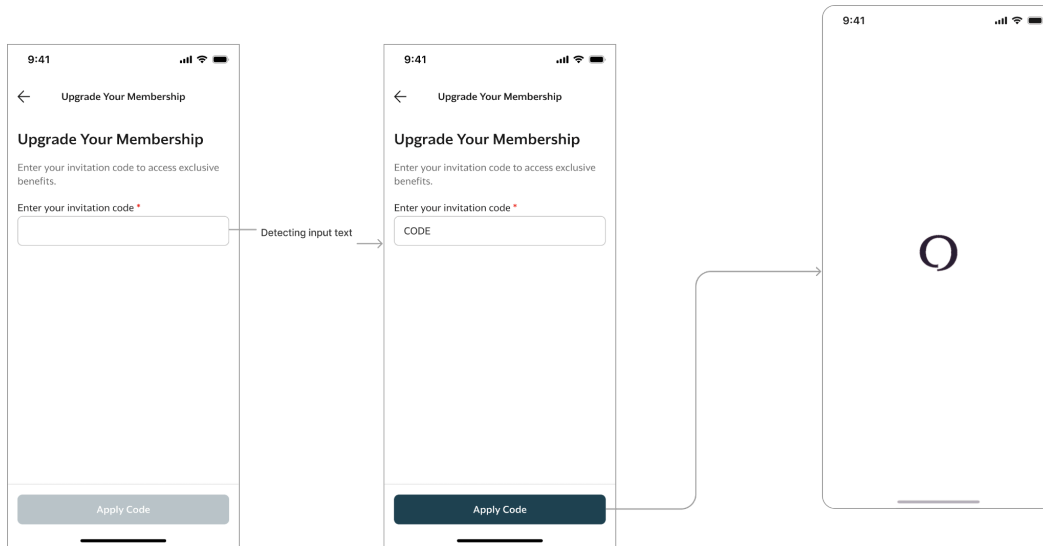

Step 1 – Navigate to My Profile. : User selects “Upgrade Membership”.

Step 2 – Enter Code: User enters a 10-character code.

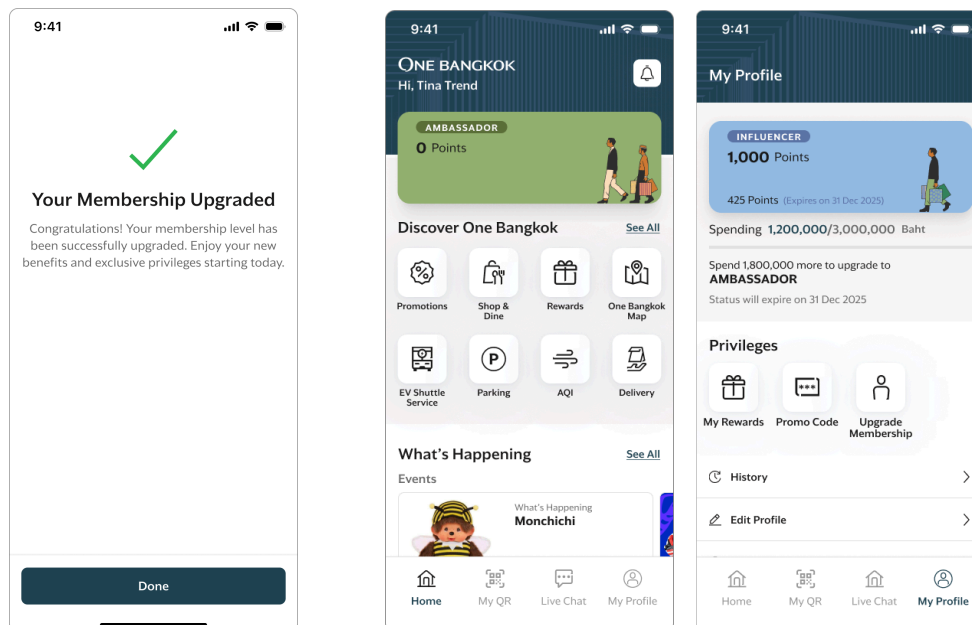

System rules:

- Uppercase letters (A–Z), Numbers (0–9)
- Required field
- System checks: Code existence, Not expired, Not used and Associated tier configuration

Step 3 – Tier Upgrade: If valid, Tier is updated and Success screen displayed

Remark: If a user applies a new valid code, it overrides the previous tier.

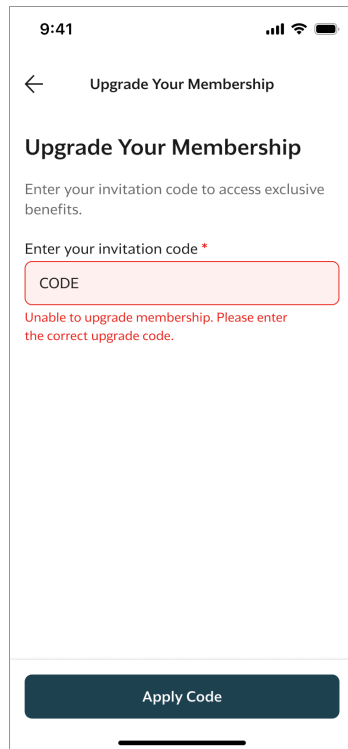

Tier is updated

4.3. Business Rules – Upgrade Membership

Rule	Description
Code Length	10 characters
Character Set	A–Z, 0–9
Expiry	Last day of calendar year
Usage	Single-use
Tier	Influencer / Ambassador

4.4. Error Handling – Invitation Code

Scenario	Display
- Invalid code - Code already used - Code expired	 The screenshot shows a mobile app interface for upgrading membership. At the top, the status bar shows the time 9:41 and signal/battery icons. Below is a back arrow and the title 'Upgrade Your Membership'. The main heading is 'Upgrade Your Membership', followed by the instruction 'Enter your invitation code to access exclusive benefits.' and 'Enter your invitation code *'. A text input field with the placeholder 'CODE' is shown with a red border. Below the field, a red error message reads: 'Unable to upgrade membership. Please enter the correct upgrade code.' At the bottom, there is a dark blue button labeled 'Apply Code'.

5. Code Generation (Retail BU Process)

5.1. Invitation Code Generation

- 5.1.1. Retail BU prepares CSV file:
 - First Name
 - Last Name
 - Tier
- 5.1.2. Upload file via API endpoint
- 5.1.3. System generates:
 - Unique 10-character code
 - Tier mapping
 - Expiry date
- 5.1.4. System returns CSV file with generated codes

Stored Data:

- VIP First Name
- VIP Last Name
- Tier
- Validity Period
- Status

5.2. Upgrade Membership Code Generation

- 5.2.1. Submit request with quantity per tier:

Example: "ambassador": 100, "influencer": 50
- 5.2.2. System generates:
 - Unique 10-character codes
 - Tier mapping
 - Expiry date
- 5.2.3. System returns CSV file
